WWII & RC Aircraft Showcase – Raffle Collection: This one-page collage features a stunning lineup of scale model aircraft, from legendary World War II fighters like the P-51 Mustang and P-38 Lightning to modern RC trainers and replicas. Each model reflects the craftsmanship, history, and passion behind the hobby—and best of all, every aircraft shown here will be raffled off at our upcoming event! Some are brand new in box, while others are gently used. Whether you're a seasoned pilot or just discovering the thrill of flight, this is your chance to take home a piece of aviation history and fuel your passion for the skies.
